Design Review

Slide #	Description
	No issues found in PDR

Solution / Requirement

Design Review

- The following three search screens will be updated to include the Contract Specialist Last Name and Contracting Center.
 - View All COR Submitted Documents
 - View All Local COR Records
 - View All CORS (Admin)
- Note: As the task or delivery order number is part of the contract number and stored in the database as one field, it is not possible to determine where the contract number ends and task or delivery order number begins.
